This supplement contains a selection of papers presented at a workshop held at the London School of Hygiene & Tropical Medicine in September 2003. The editors thank the London School for hosting the workshop and the following organisations for their financial support: MEASURE Evaluation Project at the University of North Carolina and Family Health International with funds provided by the United States Agency for International Development; the United Nations Children's Fund; and the Joint United Nations Programme on HIV/AIDS (UNAIDS). The views expressed in the supplement do not necessarily represent the views or policies of these supporting agencies. The editors also much appreciated the contributions of Naomi Rutenberg, Sandy Carr, and Huyette Shillingford for assistance with reviewing, editing, and manuscript preparation, respectively.
